

Hunter®

SRC Controllers

SRC

The Residential & Light Commercial Controller that Sets the Standards for Economy and Versatility

Introducing a controller with the kind of features virtually no other competitively priced controller has. The Hunter SRC brings to the economy end of the scale the kind of sophisticated technology and built-in convenience that was once only available on top-of-the-line products. Imagine...dial programming and a large display for quick set-up...a built-in 365-day calendar clock to accommodate odd/even watering restrictions

(no monthly reprogramming hassles)...a convenient rain sensor bypass circuit...a full three programs, each with four start times. It's all here in this solidly built, indoor only command center featuring a rugged cabinet that gives the product a polished, professional look. Why pay more to get all of the features you can get right here for a whole lot less? The Hunter SRC is the controller that's setting new standards for economy and versatility.

FEATURES & BENEFITS

Dial programming

Easy program entry for installers and end-users

3 programs with multiple start times

Accommodates repeat watering requirements, morning, afternoon and evening

Large LCD display

At-a-glance viewing

365-day calendar clock

Accommodates odd/even watering restrictions, maximum flexibility

Rain sensor bypass

Quick override of rain sensor, no separate switch required

Wiring compartment with terminal strip

Fast installation, extra space to work

SRC: The only thing easier than using it is setting it up

The SRC controller is not only easy to use, it's also easy to install. All you need is a few simple tools and a few moments of your time to set up the wall mounting bracket that's included with your controller. We think you'll find the large wiring compartment and handy provision for conduit will also contribute to making this one fast and neat installation.

Make your simple and reliable controller even simpler

Now you can make your user-friendly SRC controller even easier to operate with the optional ICR remote control. Imagine the convenience of being able to manually activate any zone from anywhere in a yard — up to one kilometer from the controller.

Models

SRC-601i – 6-station, indoor model

SRC-901i – 9-station, indoor model

Options

- Faceplate label and instructions available in Spanish, French, Italian, German and Portuguese

Dimensions

- Overall height: 21 cm
- Width: 21.5 cm
- Depth: 5.7 cm

Operating Specifications

- Station run time: 0-99 minutes in 1-minute increments
- Start times: 4 per day, per program, for up to 12 daily starts
- Day schedule: 7-day calendar or true odd-even programming with 365-day calendar clock
- AM/PM or 24-hour clock option
- Start time stacking
- Simple manual operation

Electrical Specifications

- Recommended Transformer Rating: (Transformer provided separately)
Transformer input: 230VAC, 50 Hz or 110VAC, 60 Hz.
Transformer output: 24VAC, 0.75A minimum
- Station output: 24VAC, 0.3A per station
- Maximum total output: 24VAC, 0.6A, includes master valve circuit
- Battery backup: 9-volt alkaline battery in separate compartment (not included)
- Master valve output: 24VAC, 0.3A
- Overload fuse: 0.75A
- Surge protection: built-in primary MOV-type
- Fail-safe default program: after a prolonged power outage waters each station 10 minutes every day beginning at 8:00 AM
- Rain sensor override compatible with all major brands
- Preset test cycle on program “C”
- Central control compatible with Hunter Irrigation Management and Monitoring System™

PRODUCT EXPLANATION

EXAMPLE: **SRC - 601i**

MODEL	FEATURES
SRC 601i	6-station controller. Indoor model. 50/60 Hz without transformer.
SRC 901i	9-station controller. Indoor model. 50/60 Hz without transformer.
SRC 600i	6-station controller. Indoor model. 50/60 Hz with 110 Volt plug-in transformer.
SRC 900i	9-station controller. Indoor model. 50/60 Hz with 110 Volt plug-in transformer.
